Connectivity

Wired, wireless or integrated intelligence.

Create modular power and intelligence for every need. Easy seamless integration thus no more hassling with cables. Easy maintenance and very low power consumption. Easy air comes with Intel® Core™ 5th generation processors, Broadwell architecture and a built in Wi-Fi router. CTOUCH Easy air is equipped with Windows10 Professional.

The biggest power for the smallest budgets.

Easy installation

Together with the Easy air PC module the Laser air eliminates the need for an external PC, cabling, mounting and power supply. This will save a lot of installation time! Just slide in the Easy air module and switch on the CTOUCH display.

Easy preparation

The possibility to use the Easy air PC module as a stand alone unit is a huge benefit. Batch installations can easily be done from your own desk.

Easy seamless Integration design

The solution provides clean and hidden integration while external output and network port(s) are still within reach. PC signal, audio and touch control signals all passed internally from Easy air PC module to the Laser air display and vise versa without any visible wiring.

Easy maintenance

Easy air service can be performed while the display is still mounted, simplifying installation and reducing maintenance labor.

Intel inside®

The Easy air PC module is equipped with the latest 5th generation Intel® Core™ processors. You can choose the i3, i5 and i7 processor according to your needs.

Windows 10 Pro installed

Not just an OS but Windows 10 Pro ensures you to use the latest professional Microsoft solution which is compatible with joining a Microsoft Windows domain.

Second screen

A second (touch) display can easily be connected to the CTOUCH easy air PC module. Duplicate to view along or extend your desktop for a bigger canvas. This is particularly practical and cost-effective with collaboration and communication purposes.

Future speed today

Experience a super fast startup and work rapidly, due to a solid state drive and 8GB RAM. The Intel HD graphics enables up to UDH content to be played back without effort. The extensive Wi-Fi capabilities, USB 3.0 and the Gigabit LAN port makes the Easy air module more than up to date and usable for years to come.

Saving power

Thanks to integrated solution and the Intel® mobile chipset the Easy air PC module only consumes around a fraction of the energy and circulates less heat compared to a conventional computer.

Product number

- Easy air PC Module i3:   10052021
- Easy air PC Module i5:   10052022
- Easy air PC Module i7:   10052023

System board

- Intel® 5th Generation
- Intel® Chipset Broadwell Architecture
- Mobile Processor i3-5010U, 3M Cache, 2.10 GHz
  Mobile Processor i5-5200U, 3M Cache, up to 2.70 GHz
  Mobile Processor i7-5550U, 4M Cache, up to 3.00 GHz

Graphic

- Intel® HD Graphics 5500

Memory / Storage

- 8GB RAM DDR 3
- 2.5" SATA: 120GB Sandisk SSD

OS

- Microsoft® Windows™ 10 PRO

Wireless connections optional

- Wi-Fi 802.11ac
- Intel® WiDi
- Bluetooth 4.0

I/O Interface-Front

- 1x HDD LED:
- 1x Mini DP (V1.2)
- 1x HDMI (V1.4a)
- 1x VGA
- 4x USB2.0
- 2x USB3.0
- 1x Audio jack for Line-out/MIC-In:
- 1x Networking RJ45 10/100/1000Mb
- 1x Antenna

Cooling

- Custom system fan with smart fan speed control function

OS Support

- Windows 7/8.1/10 - Linux
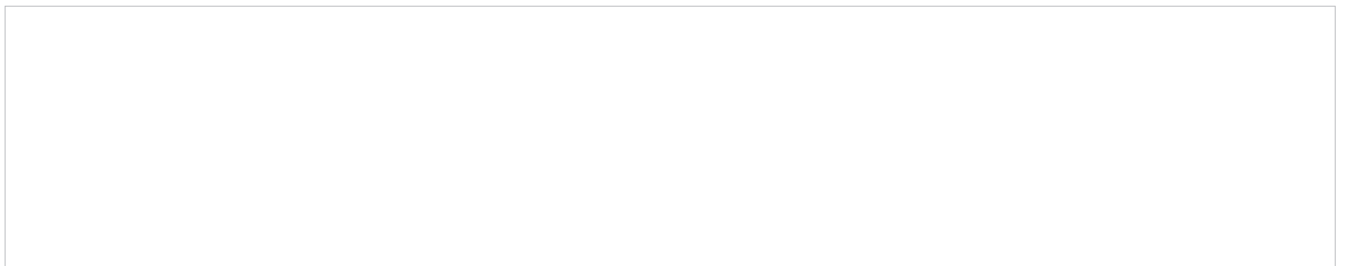

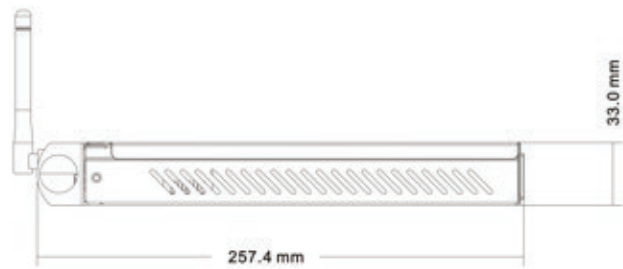

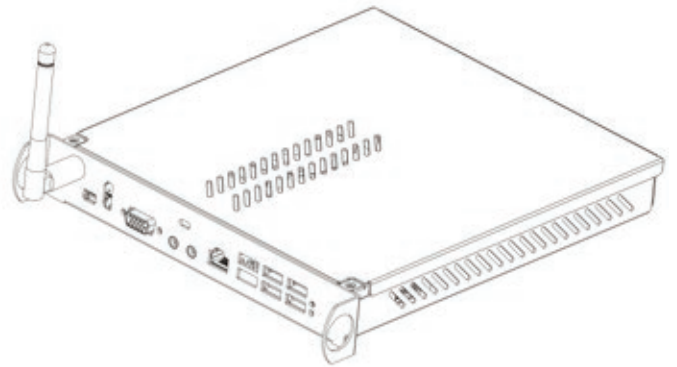

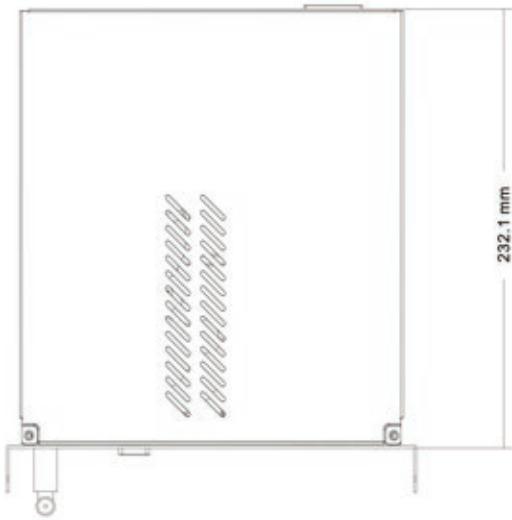

Dimension

- 258.2 x 217.0 x 33.0 mm

Warranty

- 3 years - carry in

Logistics information

- Box size (mm): 340 (W) x 295 (H) x 90 (D)
- Gross weight: 1,7 kg
- EAN no. i3:   8718868301697
