## Zero concessions on Service

Let us explain to you all the benefits of this 3 years on-site warranty.

### What are the warranty terms:

The warranty is valid from the first date of purchase by a user in combination with the production date of the display. CTOUCH Europe appoints two exceptions to the warranty period after invoicing to the (end-)user. In case:

- The production date is six months prior to the date of invoice to the user and / or
- The invoice date from CTOUCH Europe to the reseller is more than three months older than the invoice date to the user.

The decision for a call inside or outside warranty is made by CTOUCH Europe.

We use a Defective On Arrival (DOA) period of 2 weeks after the date of the invoice to the end user.

Our warranty covers hardware related and/or workmanship related defects in and on the display. This warranty also covers system software (firmware) for the monitor, including the firmware for the built-in Kickle modules. It does not cover application software, even when preinstalled by CTOUCH Europe. For all inbox accessories like remote control, pen, cabling etc. a warranty period of 2 years is applicable.
