

FIRST TIME INSTALLATION

1. Network

Plug the LAN-cable into the LAN-port on the bottom or side of the CTOUCH display, to connect to the internet.

2. Settings menu

After switching on the CTOUCH display, access the settings menu to change the default settings:

- Press the settings button on the remote control or in the quick start menu to open the settings menu
- Use default pincode [0000] to gain access

It is advised to change default settings pincode here and note down:

Optionally change the menu language here:

3. Install CTOUCH BRIX

- Mount and install OPS PC
- Follow the installation procedure according to the license card provided with the BRIX

4. Whiteboard and sharing software

- Each Canvas screen is provided with a software license for whiteboarding software and wireless sharing software
- Follow the installation procedure according to the license card provided with the Canvas screen to install these packages on an OPS or an external PC

POWER ON / OFF

TURNING THE CTOUCH INTERACTIVE DISPLAY ON OR OFF

1. Plug one side of the power cord into the AC power outlet and the other side into the wall socket.
2. Switch on the Power Switch to turn the CTOUCH interactive display on.
3. The display is in standby mode now. Wait a moment until the power indicator lights up, then press button on the remote or the CTOUCH button on the display, to turn the CTOUCH interactive display on.
4. Press button on the remote or the CTOUCH button on the display again, to turn the CTOUCH interactive display in standby mode.
5. Switch off the Power Switch to cut off the power completely.

Note: The CTOUCH interactive display needs some time to shut off correctly before it can be switched on again. By interrupting this process the next start up can take longer.

Note: When there is no active source on the CTOUCH interactive display, it will go into stand-by mode after 3 minutes.

QUICK START MENU

Press CTOUCH button to access
