

# Introduction UboardMate 2 (Android)

# Easy to use

Menubar

Toolbar

Delete page & Undo/redo

Turn & add pages

# Menubar

-  Close the application
-  Menu (explained further on page 4)
-  Share options (explained further on page 5)

# What's on the menu

-  Pen recognition
-  New File
-  Open
-  Import
-  Save
-  Save as

Define the way the pen should work:

Open/Start a new file

Open an existing file

Import images

Save files

Save files as

## Pen settings

Select the pen style you prefer.

- Traditional - Pen & finger write in the same style.
- Dual - Pen & finger write in different styles.
- Combi - The pen will write & your finger will erase.

**Traditional**

**Dual**

**Combi**

# Sharing is caring

# Toolbar

-  Select your pen (or marker). More to come on page 7.
-  Select a shape or add your own shape. More on page 8.
-  Select the thickness of your eraser. More on page 9.
-  Select your math-tool. Read more on page 10.
-  Select to pinch & zoom your page (infinite whiteboard).
-  Select different tools. More to come on page 12.

# Just mark our words

Just select a pen or a marker.

And of course color and line-thickness.

# We got 'm in all kinds of shapes

Choose the shape you need!

2D,

3D

or even add your own shape 😊

or

or

Select the thickness of your eraser.

# Math-tools you can count on

# Time to adjust

Use the arrow to select an object. Around the object there will be a rectangle with round "handles". Use these "handles" to drag the object bigger or smaller. Or use the top-handle to rotate the object.

-  = Duplicate
-  = Cut
-  = One layer forward
-  = One layer backward
-  = Change border- and fill-colors
-  = Delete

Select the background you need. More to come on page 13.

Background

Split the canvas to double the fun. More on page 14.

Split canvas

Make a screenshot.

Screenshot

Select the magnifier with multiple options. More on page 15.

Magnifier

# Backgrounds

Choose the background you need!

Color,

Picture

or even add your own background 😊

or

or

# Split the screen to double the fun

**CTOUCH**<sup>®</sup>  
The power to engage

# Magnify the attention

Touch the lightbulb to start/end the X-ray mode. Tap on the circle/square to change the shape. Drag the “handles” or border of the circle or square to make the shape bigger/smaller.

# Clear page and undo/redo

## Clear the whole page or use undo/redo
